HIGH-PRESSURE WATER
STRIPPING MACHINE

« HIGH-PRESSURE WATER STRIPPING SYSTEM

ENVIRONMENTAL FRIENDLY AND HARMLESS FOR OPERATORS

We all know that chemicals stripping can be very harmful for the environment and operators as well as for screens, compromising the mesh shape and the final printing quality. With the use of tap water only, WENK H.P.S. Machine is completely environmental friendly.

RECYCLING WATER

Option possibility to strip always with the same water by using a simple recycling water system.

LONG LIFE SCREENS

Screens can be stripped at least 5 times or more, since WENK H.P.S. Machine is running with water only, no chemicals at all.

MADE IN ITALY + MADE IN GERMANY

Our stripping unit consists of a "made in Italy" stainless steel machine and a very powerful ultra high-pressure "made in Germany" pumping unit which combined together allow stripping and smoothing creases at the same time. Everything automatically run by a simple computer unit.

AS BRAND NEW SCREENS

Having your screens smoothed as new will allow your operator to re-engage them very easily and obtain a very good quality printing results, virtually as if they were new.

EASY MAINTENANCE

One nozzle only and the use of standard tap water make WENK H.P.S. Machine a very simple and cheap maintenance machine.

Get your investment back within the first 1500/2000 screens stripped with

Available in 3 different types for all repeats from 640 to 1018:

WENK HPS3500 for all rotary screens up to 3500 mm

WENK HPS3050 for all rotary screens up to 3050 mm

WENK HPS2100 for all rotary screens up to 2100 mm

PUMPING UNIT

LENGTH 1.600 mm

WIDTH 1.450 mm

HEIGHT 1.550 mm

WEIGHT Kg. 1.400 approx.

POWER 75 Kwh

VOLTAGE 380 3 Phase 50 Hz

AIR 900 NI/m at 7 bar
